## Complus Program

-

### ATEX Guidance Directives 94/9/EC & 1999/92/EC

#### Course Overview

A competence based course designed to advise on the current requirements of the ATEX Directives and supporting documentation for electrical and non-electrical equipment for use in potentially explosive atmospheres. The course will provide an understanding of the compilation of technical files, certification and labelling of equipment.

#### Course Content

S.I. No. 192 and DSEAR S.I. No. 2776 where applicable:

- Products within scope
- Zones of use, equipment groups, conformity categories
- Designation of notified bodies
- Documents issued by notified body and manufacturer
- EC-type examination and declaration of conformity
- Internal control of production
- Essential health and safety requirements
- Ignition risk assessment
- Applicable harmonised standards
- Structure of the technical files
- CE marking of equipment and other references
- Reference to Quality Assurance
- Application to repaired, modified and hired products
- Written Assessment

#### Target Audience

Personnel involved in manufacturing, assembly and the users of equipment for applications in hazardous areas. Suitable for project engineers, on-site installers and Health & Safety personnel, who require an understanding of the Directives and the implications of DSEAR (The Dangerous Substances and Explosive Atmospheres Regulations).
